Dear Dr. Hahn:

I have looked over all our coins and what literature we have on the subject and find neither the use of nor any reference to any motto such as you spoke about on the coins of Anhalt. I have made a beginning in getting together a collection of Kwan Ei sen and hope to get them all together sometime this week.

Very truly yours,

Dear Doctor Hahn:

Mr. Noe was telling me you had sent in your resignation. I hope you are not getting out of coins entirely. I know I have not heard much from you of late and was wondering about you the other day.

Are you still going to keep your Japanese and Chinese coins? If not, you might possibly have some Japanese pieces I might like myself.

I remain,

Very truly yours,

Dear Doctor Hahn:

Your letter with enclosures just at hand and I want to thank you most sincerely for the several stamps that you sent me. I am delighted to have them.

Do not hesitate to bring anything in here you wish to find out about.

Very truly yours,
